ADOPT HYDRANT

The Adopt-a-Hydrant program encourages residents and businesses in the City of Corner Brook to help keep fire hydrants clear of snow during the winter months. This program is open to all residents, businesses, families, and community organizations that want to ensure the safety of their neighborhoods. By participating, you can help firefighters quickly locate and access hydrants in case of an emergency.

How to Adopt a Hydrant:

1. Go to: <http://www.cornerbrook.com/adoptahydrant/>

Or

2. Fill out the form and mail it back to the **City of Corner Brook, P.O. Box 1080, Corner Brook, NL A2H 6E1, Attn: Adopt a Hydrant Program.**

Or

3. Call **709-637-1666** and provide your name, hydrant number, telephone number, and email address.

Then, clear your hydrant after a snowfall, or if it is heavily covered in snow.

Please ensure there is always a 3 ft. clearing around your hydrant. Please be extra vigilant after heavy snowfall. Firefighters will be checking hydrants regularly to ensure safe clearance.

Once you register, and you maintain a snow-cleared hydrant, your name will be entered for the grand prize draw!

I would like to help the Fire Department protect lives and property by adopting the fire hydrant located at:

(Nearest Street) _____ Hydrant # _____

Name: _____

Address: _____

Phone #: _____ Email: _____
